Springettsbury to Hire Second Officer under COPS in Schools Program

York, PA - The success of the COPS in Schools Program has given Springettsbury Township Board of Supervisors cause to hire a second officer for placement in Springettsbury Township schools. The Township was awarded a \$250,000 COPS in Schools grant in 2005 to hire two officers whose primary duties are to serve Springettsbury schools as *School Resource Officers*.

The School Resource Officers provide police services including, but not limited to, mentoring, classroom instruction, mediating disputes, and any other needs requiring police intervention that take place on school grounds.

Springettsbury Township Board of Supervisors is pleased with the programs success, and look forward to enhancing the program with this second officer.
