PRESS RELEASE

New Trash and Recycling Hauler for Springettsbury Residents

York, PA – Effective January 1, 2008, York Waste Disposal will provide trash and recycling services to Springettsbury Township residents. The Township’s waste-hauling contract with Penn Waste officially expires December 31, 2007.

Services offered will generally remain the same, though there will be an increase in the cost of those services. The costs per quarter will increase as follows:

Service	2007 Cost	2008 Cost
1-32 gallon trash bag or trash can per week plus recycling pick-up	\$33.82	\$42.15
3-32 gallon trash bags or trash cans per week plus recycling pick-up	\$38.02	\$45.45
1-96 gallon toter equal to 3-32 gallon trash bags or trash cans per week plus recycling pick-up	\$56.02	\$63.45

Penn Waste has been the Township’s waste hauler for six years. This lengthy contract provided cost stability for our residents. As the price of gasoline and other commodities rise, it is inevitable that the cost of services dependant upon such things will also rise.

Residents should look for additional information in their Winter Township Newsletter that will reach homes in mid to late November, or now at www.springettsbury.com.
