PRESS RELEASE

Springettsbury Township Awarded DCNR Grant

York, PA – Springettsbury Township has been awarded \$30,000 from the Community Conservation Partnerships Program (CCPP), administered by the Department of Conservation and Natural Resources (DCNR), to complete Master Site Plans for Pleasureville Park, August Schaefer Park and the North Hills parcel.

With only 150 acres of parkland in Springettsbury Township and a growing population of over 24,000, the task of determining how to develop and enhance parks and recreation facilities and services is a challenge. Master Site Plans for Pleasureville, August Schaefer and North Hills will help the Township to ensure that its' park land is being utilized to its fullest potential, and serving our population's greatest recreational needs.
