Township Road Improvements Northwest Sector Projects

Druck Valley Road Overlay: Mount Zion Road to Sherman Street

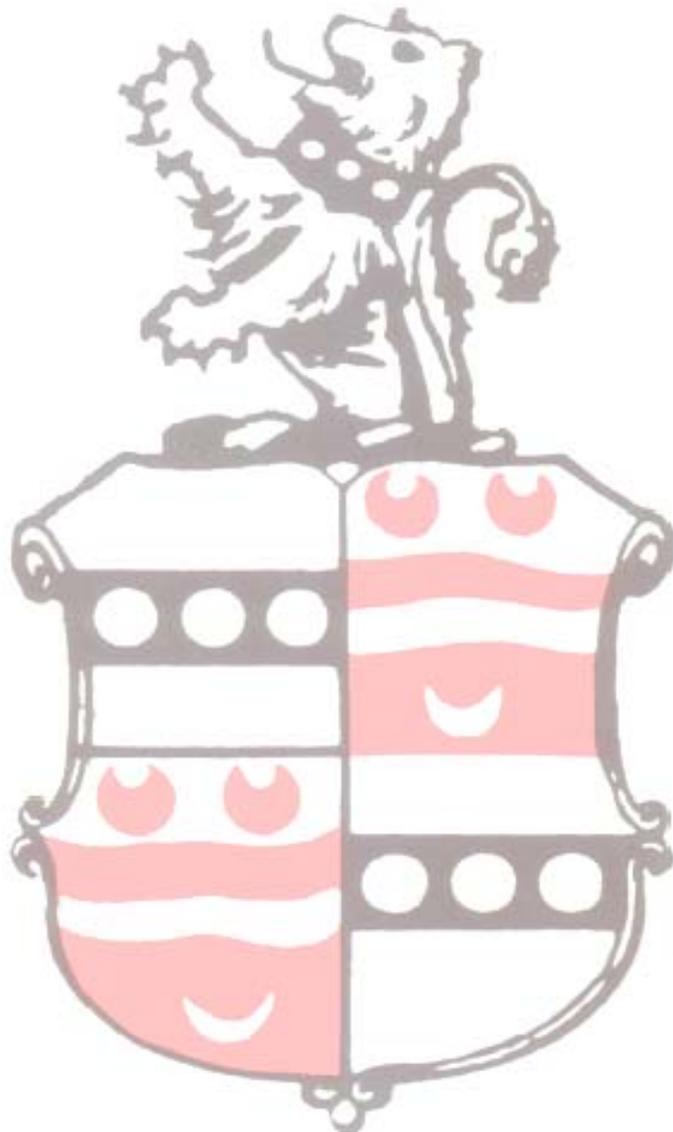

- Estimated to begin in the 2011 construction season

Township Road Improvements Northeast Sector Projects

Druck Valley Road Resurfacing: Mount Zion Road to Range Road

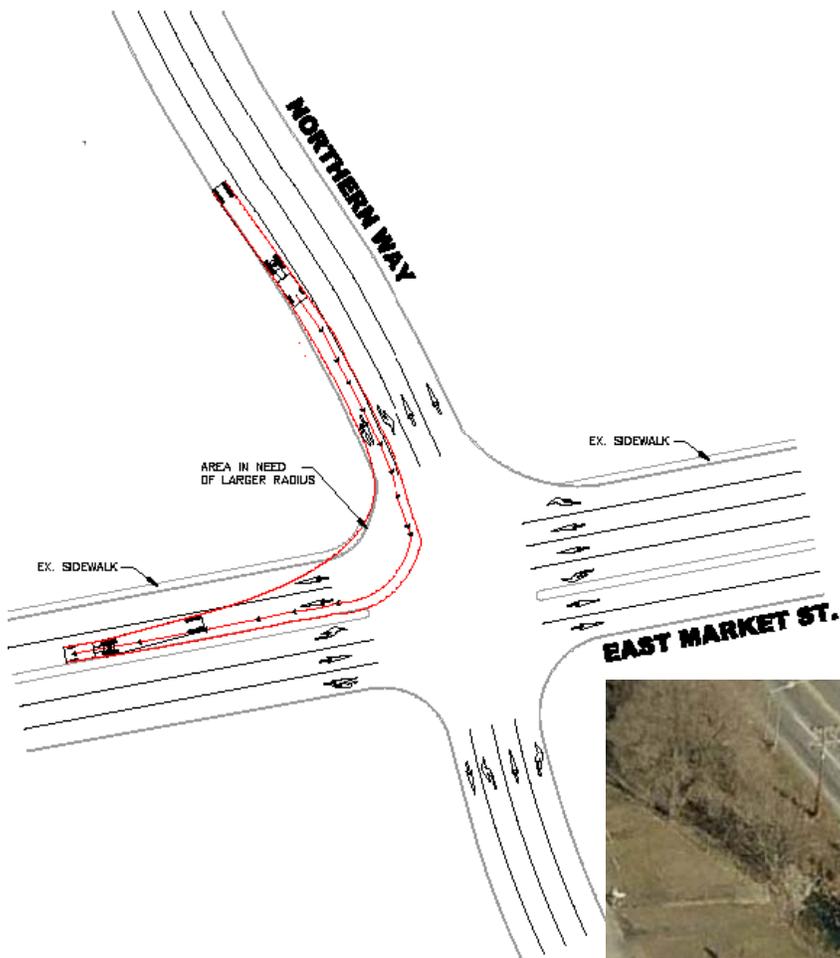

- Estimated to begin in the 2011 construction season

Township Road Improvements Southwest Sector Projects

Northern Way and Market Street Intersection Improvements

- Stream enclosure required
- Total Township costs, including construction and engineering are estimated at \$1,163,415.00
- Township is applying for grants and funding

Township Road Improvements Southwest Sector Projects

I-83 Overpass Project: Eberts Lane and Sherman Street

- PennDOT bridge projects
- Resurfacing of Sherman from Market Street to Route 30
- Scheduled completion is Fall 2011

Eberts Lane Bridge

North Sherman Street Bridge

Township Road Improvements Southwest Sector Projects

Mount Rose Avenue at Plymouth Road

- Installation of Traffic light
- Estimated project start date of 2011

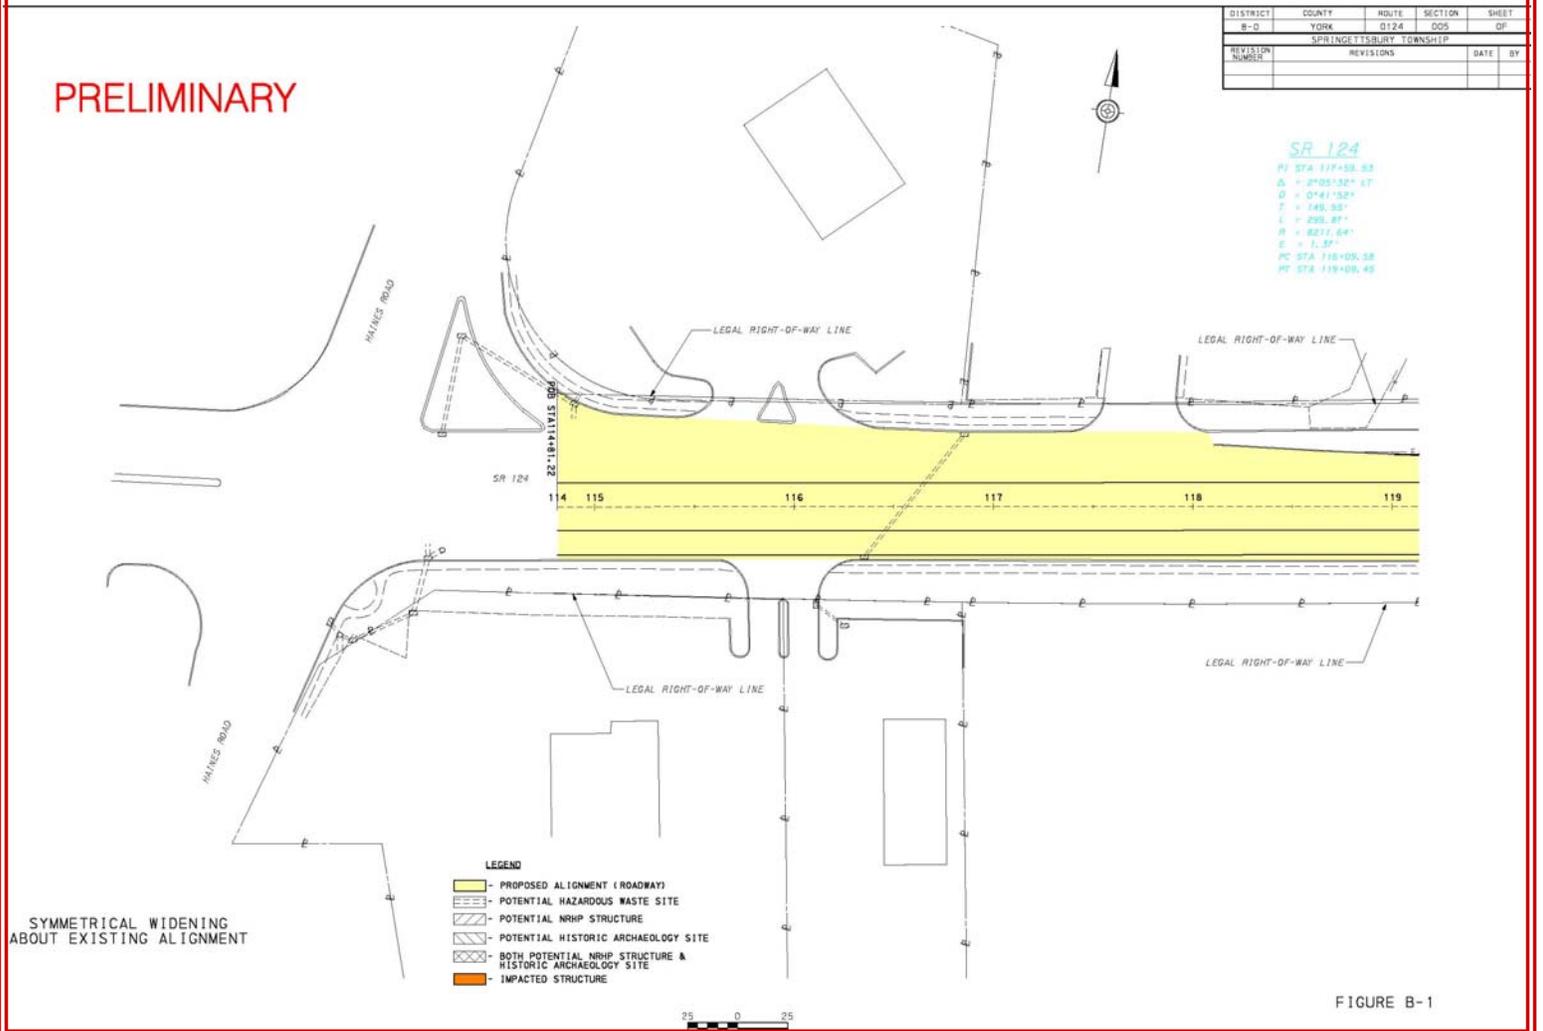

View looking East

Township Road Improvements Southwest Sector Projects

Route 124 Widening Project

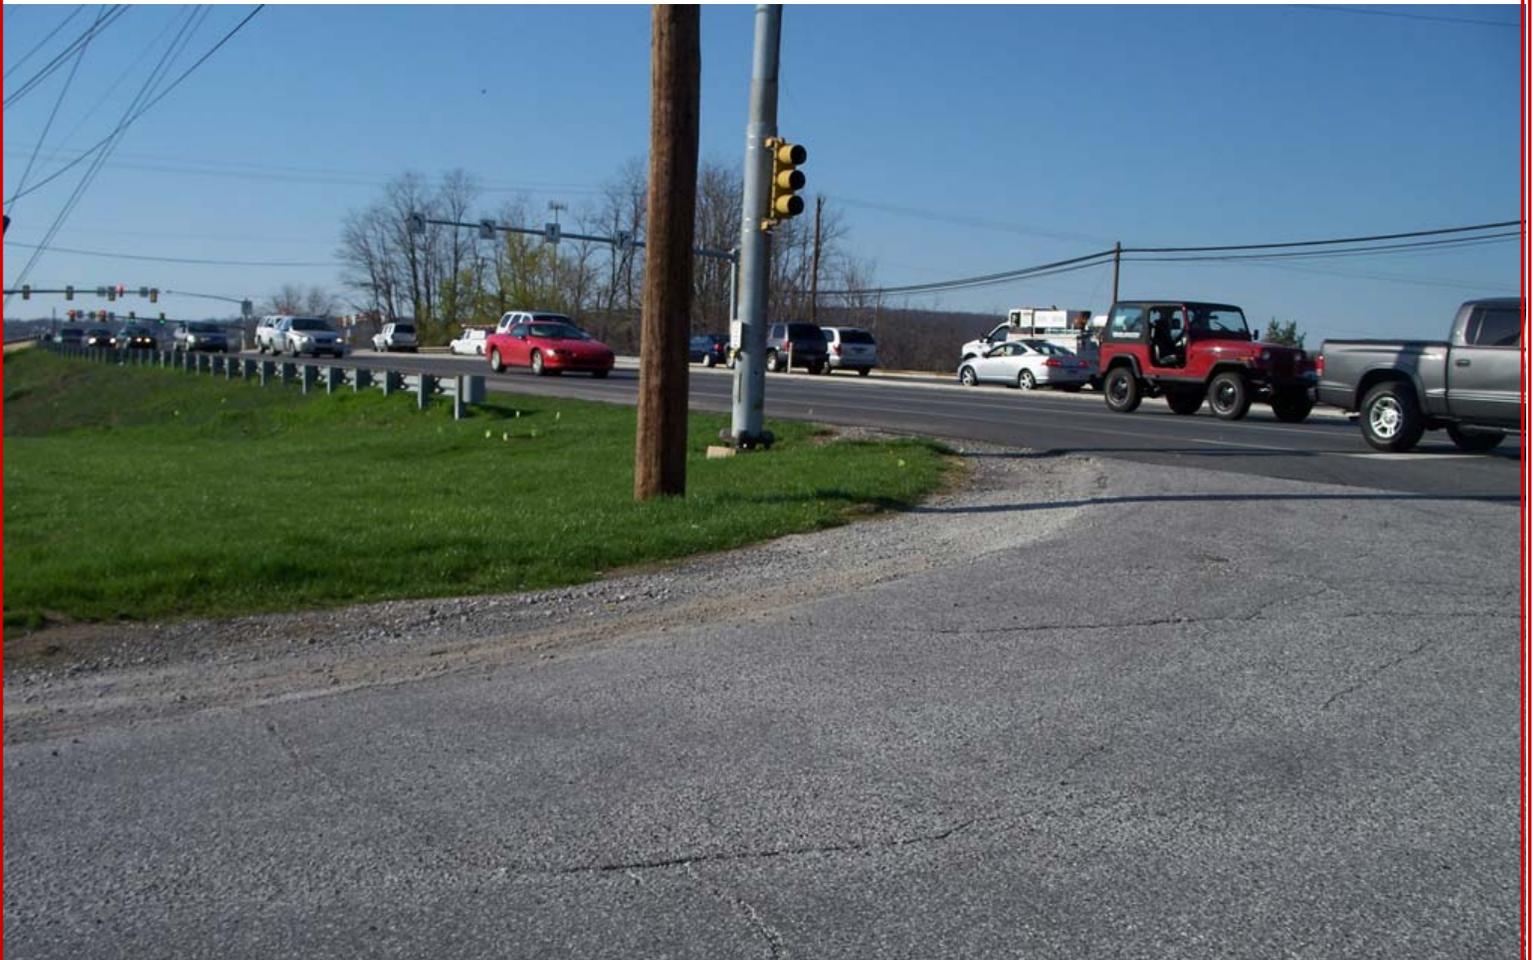

- Camp Betty Washington/Haines Road West to Chambers Road
- PennDOT project
- Estimated construction start date of 2014

Township Road Improvements Southwest Sector Projects

Industrial Highway/Mount Zion Road Intersection

- Installation of a turning lane from Mount Zion Road to Industrial Highway at the York Container site
- Improvements to the traffic signal
- Sidewalk installation on the West side of Mount Zion Road from Industrial Highway to the railroad overpass
- Estimated completion date is Fall 2011

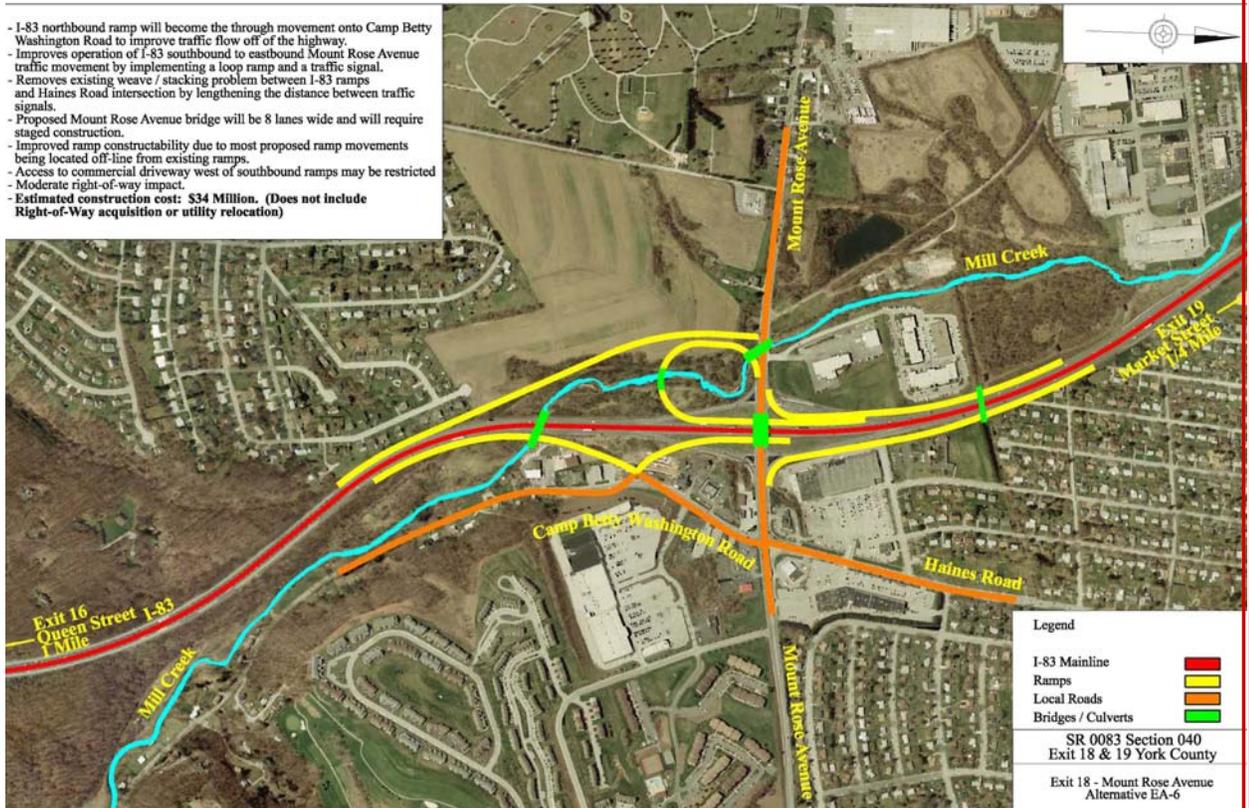

Township Road Improvements Southwest Sector Projects

Interstate 83: Exit 18 Improvements

- Estimated construction start date in 2016
- PennDot Project

- I-83 northbound ramp will become the through movement onto Camp Betty Washington Road to improve traffic flow off of the highway.
- Improves operation of I-83 southbound to eastbound Mount Rose Avenue traffic movement by implementing a loop ramp and a traffic signal.
- Removes existing weave / stacking problem between I-83 ramps and Haines Road intersection by lengthening the distance between traffic signals.
- Proposed Mount Rose Avenue bridge will be 8 lanes wide and will require staged construction.
- Improved ramp constructability due to most proposed ramp movements being located off-line from existing ramps.
- Access to commercial driveway west of southbound ramps may be restricted.
- Moderate right-of-way impact.
- Estimated construction cost: \$34 Million. (Does not include Right-of-Way acquisition or utility relocation)

Township Road Improvements Southeast Sector Projects

Market Street/Mount Zion Road Intersection Improvement

- PennDOT and Springettsbury Township cooperative project
- New right turn lane from Eastbound Market Street onto Southbound Mount Zion Road
- New right turn lane from Westbound Market Street onto Southbound Mount Zion Road
- Additional left turn lane from Southbound Mount Zion Road onto Market Street
- Optimize signal timings
- Township has committed \$500,000 to PennDOT
- Estimated to begin in March 2011

Township Road Improvements Southeast Sector Projects

Market Street Widening: Mount Zion Road to Locust Grove Road

- Widening road to 5 lanes
- Includes addition of median from Route 24 to Bloomingdale Avenue
- Federal and State Highway funded
- Estimated to begin in March 2011

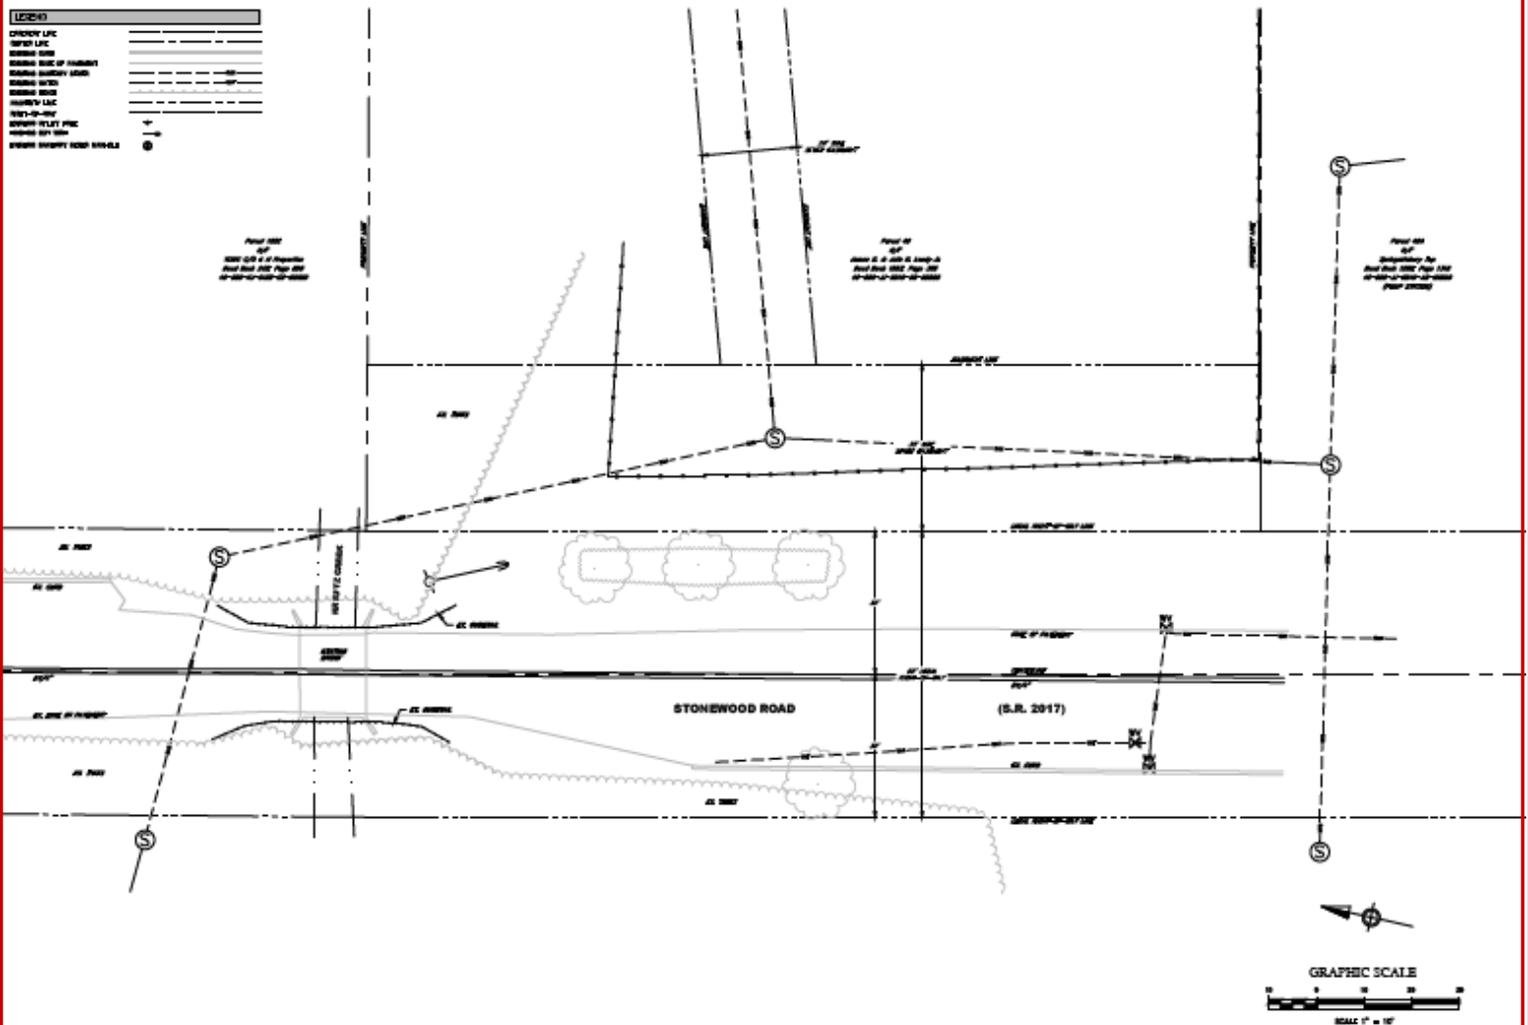

*Traffic Study for Eastern Boulevard to Pleasant Valley Road, upon completion of the above project. This will be, in part, for optimization of re-timing of the traffic lights.

Township Road Improvements Southeast Sector Projects

Stonewood Road Bridge Project

- PennDOT design and build project
- Widen two bridges between Market Street and Old Orchard Road; replace existing bridge over Kreuz Creek
- Awarded to Kinsley Construction
- Estimated to begin during the 2011 construction season

Township Road Improvements Southeast Sector Projects

Old Orchard Road/Witmer Road Intersection

- PennDOT and Springettsbury Township cooperative effort
- Currently in Feasibility Study phase
- The project proposes to realign the intersection

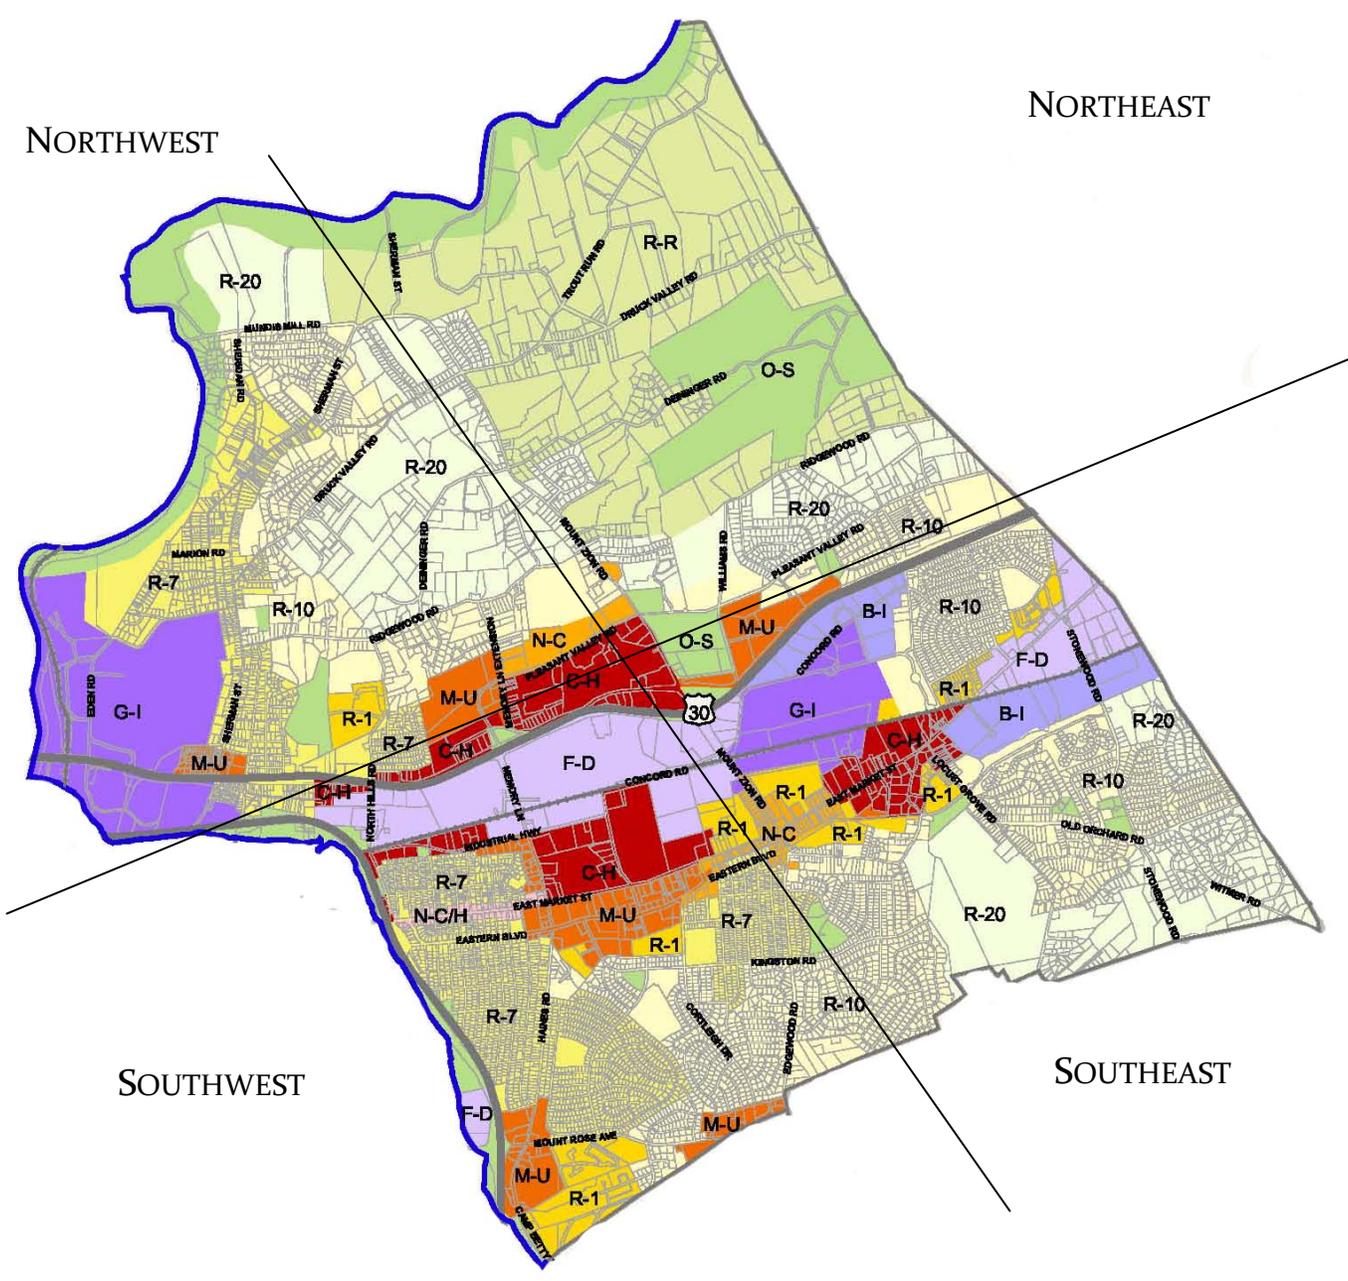

Township Road Improvements Southeast Sector Projects

Route 24/Route 124 Improvements: Carol Road to Windsor Road

- Estimated start date in 2014
