November 1, 2023

Springettsbury Township  
1501 Mt. Zion Road  
York, PA 17402  
Attn: Mr. Mark Hodgkinson

Dear Mark,

Penn Waste has been notified that effective January 1, 2024, disposal rates at the York County Resource Recovery Facility are increasing \$7.00/ton. The York County Disposal Plan mandates that all municipal-like waste be disposed of at the York Incinerator. Please see the attached letter documenting the increase. As a result of this disposal increase, Penn Waste will need to increase its quarterly rate per home by \$1.57 per quarterly billing. Your original rate for January 2024 was \$89.89 for basic service. The new quarterly rate for Springettsbury Township will be \$91.46 for basic service effective January 1, 2023. These rates include the \$5.00 per quarter admin fee. This figure was arrived at by using the township's 2022 tonnage figures for a total of 7024.62 tons.

Penn Waste looks forward to servicing the residents of Springettsbury Township and to providing quality service.

Sincerely,

A handwritten signature in blue ink that reads "Joel Washok".

Joel Washok

FOR IMMEDIATE RELEASE  
September 21, 2023

## **YORK COUNTY SOLID WASTE AUTHORITY APPROVES 2024 BUDGET FEE INCREASE TO FUND LONG TERM COUNTY NEEDS**

The York County Solid Waste Authority has approved its budget for fiscal 2024, including a tipping fee increase to fund projects for long term system stability. The tip fee for York County processible municipal solid waste at the York County Resource Recovery Center (RRC) for 2024 will increase to \$79 per ton in response to fiscal pressures created by rising operational costs, current and future environmental control upgrades at the RRC, and the Authority's obligation to prepare for the future and ensure York County's waste is properly managed with sustained environmental protection. With uncertainty over future local landfill capacity, the Authority must prepare now to meet the future waste management needs for York County.

Under this increase, the cost of waste disposal alone for an average York County household will be less than \$2 per week (based on an average household waste generation rate of 1.0 tons of trash per year). This does not include collection costs charged by private waste hauling companies hired to provide trash removal services. The minimum fee for residents delivering waste from their homes will be \$20 for up to 506 pounds.

Tipping fee-revenues help to fund operations of the York County Resource Recovery Center, operations and maintenance of the York County Sanitary Landfill/Hopewell Area Recreation Complex, electronics recycling, household hazardous waste collection, secure drug take-back programs, public education and community outreach efforts, and other programs aimed at waste reduction and recycling.

The Authority facilitates responsible solid waste management through an integrated strategy that emphasizes waste reduction, reuse, recycling, and resource recovery.
